

# DIVERSITY MANIFESTO

We **evaluate your work** using many criteria:

The **knowlegde** you bring and we can still teach you.

Your **accomplishments** and what you can still accomplish.

Your **ability to learn new things** and apply them.

How you **inspire** your environment and how you let the environment inspire you.

The **challenge** you choose.

What you **learn** from failure and how you **celebrate successes**.

**Team spirit, talent** and **potential**.

**Performance**.

But we will never evaluate your work based on who you are, where you're from, what's your age or your religion and who you love.

**NEVER.**
